Corporate Overview

Success By Design, LLC (SBD) is small IT business focused on providing secure, scalable, and innovative technology solutions to federal, state and local, as well as commercial clients. With a foundation built on technical excellence, integrity, and service, we deliver secure, scalable solutions for managed IT services, cloud migration, cybersecurity and program support — all backed by ISO-certified quality and proven performance.

Core Competencies

- **Network Design & Integration** – Secure, scalable infrastructure engineering
- **Systems Engineering** – Lifecycle design, analysis, and optimization
- **Managed IT Services** – Ensuring secure, reliable, and optimized systems that enable mission success
- **Cybersecurity & Risk Management** – CMMC L1, ISO 27001 & 9001 and HIPAA-based Controls
- **Cloud Computing** – Migration, deployment, and optimization for hybrid/federal clouds
- **Communication Infrastructure / AV & VTC Systems** – Design, installation, and maintenance
- **Data Management & Digital Transformation** – Tier I–III service, Document digitization, database integration, and analytics
- **Security & Access Control Systems** – Physical and network security integration
- **Staff Augmentation / Program Management** – Certified professionals and PMP-certified leadership

State, Local & Commercial Certifications

- Maryland (MDOT): MBE / DBE / SBD / SBR / VOSB
- Washington, DC (DDOT/WMATA): DBE / SBE
- Virginia (SWaM): Small / Micro / SDVO
- NaVOBA

Differentiators & Federal Contract Vehicles

- **CMMC Level 1** (L2 Pending) – Demonstrated cybersecurity maturity for federal environments
- **ISO 9001 & ISO 27001 Certified** – Commitment to quality and information security
- **HIPAA Certified** – Compliance for sensitive data handling
- **DCAA-Compliant Accounting System** – Audit-ready for federal contract execution
- **Highly Certified Personnel** – CCNA, CCSP, PMP®, Lean Six Sigma, ITILv3, and more
